DEVI MIKHAEL EMPI

Software Engineer

Jl. Tenggiri 2 No.231, Depok • d.mikhaelempi@gmail.com • linkedin.com/in/mikhaelempi • +62 896 4964 6619

SUMMARY

Full Stack Developer with strong experience building **scalable**, **secure**, and **maintainable** web applications across enterprise, government, and product environments. Proficient in **JavaScript**, **React.js**, **Node.js**, and **PHP**, with hands-on experience developing responsive user interfaces, backend services, **RESTful APIs**, and database-driven systems using both **SQL** and **NoSQL** technologies. Proven ability to collaborate with cross-functional teams, troubleshoot production issues, and contribute to deployment and continuous improvement initiatives.

WORK EXPERIENCE

ALNER — **Jakarta, Indonesia**

Full-Stack Developer — **JUN 2026-PRESENT**

- Shipped full-stack features across 8 production services using Go, Next.js, Laravel, and Python/Odoo.
- Fixed a silent ERP bug behind 4,775 stale price rows (63%) with reconciliation and retry logic.
- Cut storefront assets 90%, removed ~1,914 dead code lines, replaced a paid API with custom detection.

PT HITHINK TECHNOLOGY INDONESIA — **Jakarta, Indonesia**

Software Engineer — **JUL 2025-JUN 2026**

- Modernized **Java** backend services for Japanese government tax systems.
- Developed frontend components with **React.js** for operational applications.
- Performed testing to improve release quality and system stability.

TELKOM INDONESIA — **Jakarta, Indonesia**

Developer Intern — **SEP 2024-JAN 2025**

- Developed backend APIs using **Java** and and **REST APIs** using **Play Framework**.
- Supported application and database migration to **Google Cloud Platform.**
- Collaborated in **Agile** sprints with developers on structured feature delivery.

ABN CENTER — **Jakarta, Indonesia**

Back-End Web Developer — **DEC 2023-FEB 2024**

- Built **Laravel** backend for voter management and secure user authentication.
- Developed **RESTful APIs**, logging, and data modules for election operations.
- Reduced system downtime by **25%** during critical election periods.

PT PROJECT META TEKNOLOGI — **Depok, Indonesia**

Back-End Web Developer — **OCT 2022-NOV 2023**

- Developed backend systems with **Laravel**, **MySQL**, and security-focused implementation.
- Applied **CSP**, **CORS**, and secure coding practices across client projects.
- Delivered projects within tight timelines using **Git** collaboration.

EDUCATION

GUNADARMA UNIVERSITY — **Depok, Indonesia**

S1 Informatics Engineering (graduated with GPA of **3.92)** — **SEP 2021-SEP 2025**

BANGKIT ACADEMY LED BY GOOGLE, GOTO, & TRAVELOKA — **Jakarta, Indonesia**

Cloud Computing Cohort (Distinction Graduate) — **FEB 2024-JUL 2024**

ACTIVITIES

CODING CAMP POWERED BY DBS FOUNDATION **Bandung, Indonesia**
Full-Stack Web Developer Facilitator **JAN 2026-JUL 2026**

- Facilitated 25 full-stack mentees at Coding Camp, rated 4.90+/5.00 across 7 program periods.
- Spoke at 2 Coding Camp talk show sessions, averaging 694 attendees, on capstone and career prep.

ASAH LED BY DICODING **Bandung, Indonesia**
React & Back End AI Mentor **AUG 2025-JAN 2026**

- Mentored **480 students** in React and Backend development, achieving an **~85% success rate**.
- Recognized as **'Best Mentor'** with a **4.80/5.0** rating and engaged 500+ attendees as a guest speaker.

LEMBAGA PENGEMBANGAN KOMPUTERISASI UNIVERSITAS GUNADARMA **Depok, Indonesia**
Course Tutor **MAR 2023-OCT 2025**

- Taught web, Go, PHP, and .NET fundamentals to **35+** participants.
- Prepared learning materials and guided problem-solving through structured sessions**.**

GUNADARMA I/O **Depok, Indonesia**
Front-End Web Development Judge Infinity 2.0 **SEP 2023-SEP 2024**

- Led technical workshops and mentored **80+** students in software engineering topics.
- Organized coding events, strengthening collaboration and technical communication.

SKILLS

Frontend & Languages: JavaScript, HTML, CSS, React.js, PHP, Java, Python, Go**.**
Backend & Frameworks: Node.js, Laravel, Express.js, Play Framework, React Native**.**
Databases: MySQL, PostgreSQL, MongoDB, SQL Server, Redis**.**
API & Engineering: RESTful API, API Integration, Authentication, Debugging, Troubleshooting**.**
Tools & Practices: Git/GitHub, Agile/Scrum, CI/CD, Docker, Postman, Jira, Confluence**.**
Cloud & Infrastructure: GCP, Cloud Run, Compute Engine, VMware, ESXi.

ACHIEVEMENT

- 3rd Place, ANONCYBERTEAM CTF v1.0 | Anon Cyber Team | Mar 2024
- Top 5 Finalist, TECHOMFEST CTF 2024 | Politeknik Negeri Semarang | Jan 2024
- Finalist, Hackfest 0x07 CTF | Cyber Community Universitas Gunadarma | Dec 2023
- 1st Place, HIMTI Web Design Competition | Himpunan Mahasiswa Teknik Informatika Gunadarma | Aug 2023

CERTIFICATION

- Belajar Fundamental Aplikasi Web dengan React | Dicoding Indonesia | Jun 2025
- Belajar Fundamental Back-End dengan JavaScript | Dicoding Indonesia | Jun 2025
- Google IT Support Specialization | Google | Feb 2024
- Belajar Fundamental Front-End Web Development | Dicoding Indonesia | May 2025

PROJECTS (MORE PROJECTS HERE: https://bit.ly/portfolio-mikhael & https://github.com/thec41n)

OPENMUSIC API **JUN 2025**

Dicoding Course Project

OpenMusic is a robust RESTful API designed for a music service platform, providing core functionalities like user authentication, collaborative playlists, and music management.

- Tech Stack: Node.js, Hapi, PostgreSQL, RabbitMQ, Redis, Amazon S3, JWT.
- Designed and built the entire API, implemented user authentication, developed features like collaborative playlists & email exports via a message broker, and integrated cloud storage with Redis for caching.

KUE YANTI **MAY 2024-AUG 2024**

Gunadarma University Undergraduate Research Paper Project

MERN-stack e-commerce platform for SMEs, enabling secure Midtrans payments and responsive shopping experiences while expanding market reach for traditional snack businesses.

- Tech Stack: Node.js, Express.js, React.js, MongoDB, Midtrans API, Git/GitHub.
- Solely responsible for end-to-end fullstack development, including RESTful API architecture, responsive frontend implementation, and secure payment gateway integration.
